This is designed to introduce young players to match play in a fun and supportive environment while growing their live ball skills. The goal is to help players build confidence through successful point-play, learn simple scoring, and begin to experience the rhythm and feel of a tournament. Players will compete on an abbreviated court with a low compression ball. Brackets will be determined by number of players and ability. As they gain success and confidence players will advance to a full size court. Players currently in JD 3 will begin on a full size court with the stage 3 low compression ball.
